Short Assignment 2

Points: 125

Question

1. Convert the attached Java program into C++ program. The C++ program will have three files:
    a. Header file **(45 points)**
    b. Implementation file **(45 points)**
    c. main file **(20 points)**
2. The C++ program runs without any issues and as expected. **15 points**

Note: Declare all the classes in one header file. Define all the class methods in a single implementation file.
